

## **Weed Report 2019 – Yellowstone River Ranch**

Range Rider Land Management was our spray contractor. The plan for this spring's spraying had to be altered due to weather conditions. We expected to do spraying in late April or the first week of May. But we had to change our plan to spraying only noxious weeds that were flourishing as the consequence of all the rain we'd received. We had good spray weather on June 12<sup>th</sup> through June 17<sup>th</sup> when all roads were sprayed with excellent results.

You may notice some new growth of noxious weeds due to more and more rain. This will be covered with a fall spraying in September or early October.

This year's June spray cost was **\$ 1.917.91.**

The fall spraying cost should be a similar amount, or somewhat less.
