

Harold,

Here is the consolidated list of roads we discussed during the meeting:

1. Old Cowboy Trail. Suggest $\frac{3}{4}$ " fractured. Don't grade, just lay down and compact
2. Balfour Loop southeast section from last years work to Womble's
3. Coyote Pass, below Lorash. Spot repair of Coyote pass
4. Winding River, above river. Grind out exposed rock shelf? Add material?
5. Grade Winder River to Owl Canyon, maybe up Owl Canyon to Cougar Trail.
6. Culvert(s) on Winding River west side (Broadus) to use as speed bump. Two?
7. Rip Rap for Winding River North side in deep barrow ditches
8. Rip Rap for Owl Canyon west side in deep barrow ditches.
